

Developing relationships is a fundamental part of any great Sommelier and all that we have accomplished through the years has been made possible through partnership with extraordinary wine companies, wineries and most talented winemakers.

Wine is not merely learning about a beverage, but also understanding the history, language, culture, and traditions of the people and countries where each wine is made. Wine is a very complicated subject, one that reinvents itself every year with a new vintage; the fact that wines constantly change makes for a fascinating and a lifelong study.

If we can enrich people's lives, and just maybe inspire them to do something beyond what they might otherwise have done, that brings us great satisfaction. Our purpose is to help our patrons travel the world through a sip of wine, to connect growers & winemakers with consumers, to deliver their special message through their masterpiece, to savor the details in every sip and explore the cultural mosaic in every bottle to have an even more enjoyable and healthy life. Wine is a magical tool that elevates any cuisine and brings flavors to the next level.

We can undertake noble endeavors that fashion the world and foster its magic, grace and beauty. Endeavors that lead to reflection, transformation and transcendence.

Wine was created to accompany the moments that make life worth living, to bring insight and release, to console and inspire. Wine helps us on our worst day, and our greatest, and the many days in between.

Cheers!

Alexandra Svistun

Wine & Beverage Director/ Sommelier

Domaine de la Romanée-Conti

Domaine de la Romanée-Conti, DRC for short, is without doubt one of the most exclusive wine producers in the world. A wine many enthusiasts can only dream of. But what is it that makes this winery so special?

It is a combination of three factors: very high quality, reputation and exclusivity, and consequently supply and demand. The domain's flagship is the Romanée-Conti Grand Cru. Its price tag of several tens of thousands of euros per bottle has everything to do with the sublime quality in combination with its cult status. The production consists of only 5,000 bottles per year. With this limited production, the bottles are already scarce at the vintage release, but if it turns out to be an excellent year, the demand for that specific wine will naturally increase even more. This drives the price up even more.

Domaine de la Romanée-Conti

The very first vintage of Domaine de la Romanée-Conti was released in the year 1232.

Since 1869, DRC has been owned by only two families.

The vineyards are located on the rolling hills of the Côte d'Or, so they are slightly higher than their immediate surrounding. Due to the higher location, the soil has a different structure, better drainage, less clayey, but with a lot of limestone. The hills also ensure the right exposure to the sun. All in all, the perfect ripening conditions. Moreover, the vineyards are on the UNESCO World Heritage List. After years of lobbying and research by De Villaine, co-director of the winery, the Climats in the Côte de Beaune and Côte de Nuits were awarded World Heritage status in July 2015. This makes the vineyards even more unique!
